

EX6220 WXGA 3LCD Projector

The widescreen business projector with proven performance.

3x Brighter Colors¹, and reliable performance — 3LCD, 3-chip technology

One measurement of brightness is not enough — look for both high color brightness and high white brightness. The EX6220 has:

Color Brightness — 3000 lumens²

White Brightness — 3000 lumens²

Larger-than-life, widescreen images — high-definition WXGA (1280 x 800) resolution and 16:10 aspect ratio; ideal for HD content

Wireless connection to your laptop and mobile device — connect directly to your computer, smartphone or tablet, without wires (wireless LAN module not included)

Audio/video with just one cable — all-digital HDMI™ connection

Simple Setup Suite — Epson offers a host of innovative features that ensure flexible placement and quick setup in any room

EX6220 WXGA 3LCD Projector

The widescreen business projector with proven performance.

The EX6220 delivers compelling, larger-than-life presentations. Offering 3x Brighter Colors¹ than competitive models, Epson® 3LCD projectors ensure bright, vivid images. With 3000 lumens of color brightness and 3000 lumens of white brightness², this WXGA performer also features the ultimate in widescreen HD performance. And, thanks to HDMI connectivity, it delivers digital video and audio with just one cable. Plus, Epson's Simple Setup Suite enables flexible positioning and rapid setup in most any venue. It's the perfect solution for professionals like you whose presentations demand proven performance.

3x Brighter Colors with Epson¹

Brilliant image quality requires high color brightness (color light output), and Epson 3LCD projectors have 3x Brighter Colors than leading competitive projectors¹.

One brightness measurement (lumens) is not enough. A projector's specification needs to show both high color brightness and high white brightness. If color brightness is lower than white brightness, images may be dark, dull and lose detail. If not provided, be sure to ask for a projector's color brightness specification.

3LCD — The #1 projection technology in the world

- All 3LCD projectors have both high color brightness and high white brightness
- All 3LCD projectors have 3 chips
- 25% lower power consumption for lower energy costs³
- 20 years of road-tested reliability

EPSON

High color brightness and high white brightness

COMPETITOR

Color brightness significantly lower than white brightness

Actual photographs of projected images from an identical signal source. Price, resolution and white brightness are similar for both projectors (Epson 3LCD and 1-chip DLP competitor). Both projectors are set to their brightest mode.

Energy-efficient long-life lamp

- Delivers more lumens per watt and lasts up to 6000 hours⁵
- Epson lamps maximize your presentation time, while minimizing your costs

Wireless connection

(wireless LAN module not included)

Convenient wireless features built in:

- Connect wirelessly to a computer or laptop (direct peer-to-peer connection)
- Connect wirelessly to a network
- Make a presentation or monitor/control your projector over the wireless network

The best-selling projectors in the world.

Built with image quality and reliability in mind, Epson projectors enhance communication and inspire collaboration, while offering a low total cost of ownership. From ultra portable projectors designed for educational settings to boardroom-ready business projectors, Epson has a model that's perfect for you.

Travel light and present from your tablet or smartphone

Display and control content from your iOS® or Android™ mobile device with the free Epson iProjection™ App and any nearby wireless Epson projector⁷.

- Control your presentation with just a touch of the screen
- Advance through PowerPoint® or Apple® Keynote® presentations
- Zoom in and out of PDF, Excel® and Word documents
- Project web pages and view brilliant, high-quality images

Simple Setup Suite from Epson

Epson projectors offer a host of innovative features that ensure flexible placement and fast, easy setup.

Easy image adjustments — Position your projector almost anywhere and still get a correctly proportioned image with auto vertical correction and Easy-slide horizontal image correction.

USB Plug 'n Play instant setup — Use the included USB cable to instantly project content. View your projected presentation on the screen and your computer simultaneously.

Convenient lens control — Optimize the image size whether your projector is close to the screen or far away with the zoom lens.

HDMI connectivity — Get both audio and brilliant HD video content with just one cable. The EX6220 is compatible with the latest laptops, Blu-ray Disc® and media players.

Quick, convenient control — The EX6220 includes:

- Instant Off® — quickly power down the projector, pack up and go
- Sleep Mode (A/V Mute) — pause your presentation without turning the projector off
- Direct Power Off/On — control your projector with the flip of a switch

Additional Features/Benefits

- **PC-free slideshows** — via a USB thumb drive
- **The ultimate in portability** — compact, lightweight design; carrying case included for easy transfer to and from the office
- **Filters to protect your investment** — with easy side access for hassle-free maintenance
- **Remote control and batteries included** — for easy access to multiple functions

The more the pixels, the better the image quality

Resolution defines the level of detail and depth you'll see in a projected image. It's measured as the number of pixels wide by the number of pixels high.

1 Compared to leading 1-chip DLP business and education projectors based on NPD data, July 2011 through June 2012. Color brightness (color light output) measured in accordance with IDMS 15.4. Color brightness will vary depending on usage conditions.

2 Color brightness (color light output) and white brightness (white light output) will vary depending on usage conditions. Color light output measured in accordance with IDMS 15.4; white light output measured in accordance with ISO 21118.

3 Data source: ProjectorCentral.com Jan. 2013. Average of 1128 shipping models for which the manufacturers provided lumens and total power data, all resolutions and brightness levels. Energy efficiency was measured as wattage per lumen. It was measured for both 3LCD and 1-chip projectors in each of five brightness segments. 3LCD projectors averaged less required electricity per lumen in each of the five segments.

4 Leading 3LCD and 1-chip DLP business and education projectors selected according to NPD data as of July 2013. Independent U.S. research conducted by Radius Research (July 2013); results confirmed at a 99% confidence level.

5 ECO Mode is up to 6000 hours. Normal Mode is up to 5000 hours. Lamp life will vary depending upon mode selected, environmental conditions and usage. Lamp brightness decreases over time.

6 Android does not currently support Microsoft® Office and Keynote for Mac files.

7 Check your owner's manual to determine if a separate wireless LAN module must be purchased separately to enable wireless connection on your Epson projector. Epson projectors can be networked either through the Ethernet port on the projector (check model specifications for availability) or via a wireless connection. Not all Epson projectors are able to be networked. Availability varies depending on model.
